DETAILED ACTION

Allowable Subject Matter

1. Claims 13-22 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or suggest a method for manufacturing an intermediate bearing comprising the steps of "determining a desired amount of pre-tension for the resilient bearing member," and "securing the locking element in a position relative to the housing that achieves the desired pre-tension," in combination with the other claimed subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
